## Flood Risk Review (FRR) Meeting Pendleton County, West Virginia

### Agenda

1. Welcome and Introductions
2. Where We Are – Draft Maps
3. Flood Study Update
4. Using Flood Risk Data to Reduce Risk
5. Discussion

### Why are we here today?

The Flood Insurance Rate Map (FIRM) and the Flood Insurance Study (FIS) report for Pendleton County, West Virginia and Incorporated Areas or jurisdictions within the County are in the process of being updated. FEMA Region III and its mapping partner have developed draft riverine floodplain boundaries for Pendleton County, including new flood zone designations and base flood elevations. The preliminary FIRM that reflects these riverine floodplains is scheduled to be issued this fall. This study includes the following revisions:

- Updates all effective Zone A and AE areas with revised model-backed data
- Establishes model-backed Zone A hazards in previously unmapped areas with drainage areas of at least 1-square mile.
- Results in a total of 402 miles of Zone A streams and 2.6 miles of Zone AE streams.

The Flood Risk Review (FRR) meeting is an opportunity for the community, FEMA, State partners, and other federal agencies to examine the study areas, discuss how the analysis and mapping has changed in comparison to the previous FIRM, and work collaboratively to ensure that the needs of the community and its partners are met.

### Delivery of Preliminary FIRM and Digital Data

Once the preliminary FIRM and FIS report are released, the maps will be available for download or viewing at <https://msc.fema.gov/portal/home>, and [hazards.fema.gov/femaportal/prelimdownload/](https://hazards.fema.gov/femaportal/prelimdownload/); hard copies of the FIRM and FIS will be mailed to the community. The FEMA Draft National Flood Hazard Viewer is available to view draft flood hazard information for Pendleton County including community boundaries, Changes Since Last FIRM, draft Flood Hazard Zones, and the National Flood Hazard Layer at <https://msc.fema.gov/draft>.

## Where can I get more information?

A wealth of resources is available at [www.fema.gov](http://www.fema.gov), as well as at the following:

- The FEMA Map Service Center (MSC), <https://msc.fema.gov/portal/home>, is the official public source for flood hazard information produced in support of the NFIP. Use the MSC to find your official flood map, access a range of flood hazard products, and take advantage of additional tools.
- Information related to the NFIP and flood insurance is available at [www.floodsmart.gov](http://www.floodsmart.gov).
- Map specialists are available at **the FEMA Mapping and Insurance eXchange (FMIX)** to assist customers with locating and reading flood maps, applying for Letters of Map Change (LOMC), and obtaining and understanding Elevation Certificates. FMIX also serves to connect stakeholders with a wide range of technical subject matter experts.

Call: **1-877-FEMA MAP** (1-877-336-2627)

Email: [FEMA-FMIX@fema.dhs.gov](mailto:FEMA-FMIX@fema.dhs.gov)

Website and Live Chat:

[www.floodmaps.fema.gov/fhm/fmx\\_main.html](http://www.floodmaps.fema.gov/fhm/fmx_main.html)

Hours of Operation: Monday – Friday, 8:00am - 6:30pm ET  
(After hours self-service and voicemail support provided.)

- The WV Flood Map Tool, [www.mapwv.gov/flood/](http://www.mapwv.gov/flood/), offers additional information to help make informed decisions about the degree of risk for a specific area.
