

WSEL and Depth Grid Resolution

- (1) QL2 LiDAR-based topo used for mapping since c. 2019
- (2) QL3 Lidar Counties: Boone, Ohio
- (3) All other counties are typically 10-ft cell resolution (SAMB)
- (4) Some Hardy County AFH zones near Moorefield excluded from Preliminary DFIRM pending levee accreditation.
- (5) Partial AFH coverage available from watershed RiskMAP Studies for Lincoln and Mason counties.

WV Advisory Flood Heights (A Zones)
